MANHATTAN COLLEGE,

(CHRISTIAN BROTHERS.)

NEW YORK CITY.

This Institution, incorporated and empowered to confer Degrees by the Regents of the University of the State of New York, offers many advantages to further the moral, intellectual, and physical development of students. The situation of the College is not surpassed in landscape beauty, or salubrity, by that of any similar institution in the country. It occupies an elevated position on the east bank of the Hudson, about eight miles from the City Hall.

TERMS:

Board, Washing, and Tuition, per session of ten months\$	300
Entrance Fee	10
Graduation Fee	10
Vacation at College	40

German, Spanish, Drawing, Music, and use of apparatus in the study of Chemistry and Natural Philosophy, charged extra. School Books at current prices.

No student received for a shorter period than one term of five months. No deductions made when withdrawn during the term. The pocket-money of the student is deposited with the Treasurer.

Payment of half-session of five months in advance.

The sessions commence on the first Monday in September, and end about the 3d of July.

A public examination of the students is held at the end of the session, and gentlemen are invited to examine them then, and also during the class hours of term time.

TFOR PARTICULARS SEE CATALOGUE.

PHYSICIAN'S FEE, - - - - - \$10.

Mr. Selleck's School,

NORWALK, CONN.

The course of study presented at this school is embraced mainly under two departments, viz.: Collegiate and Commercial; the former offering facilities for the prosecution of all the studies necessary to a complete preparation for college; the latter intended to answer the requirements of those who may desire a thorough knowledge of the subjects best calculated to meet the demands of business life.

In addition to the two departments as above, there is also a general course of study. This is designed to subserve the interests of those who are too young or not sufficiently qualified to enter either of the regular departments; also of those whose parents, disinclined to mark out in advance any specific line of study, prefer that the course ultimately to be pursued should depend upon taste or talent developed by time and culture; or of those who wish to enter neither of the regular divisions of the school, but desire to pursue only general branches of study.

The discipline of the School is mild, yet efficient. An appeal to the pupil's honor and sense of right is always made; proper inducements offered; sympathy between tutor and pupil fostered; confidence encouraged. The Principal's efforts in this direction have generally been successful. Youth insensible to these influences—if, indeed, such can be found—the school, probably, would fail to benefit.

The School is situated in Norwalk, Connecticut. This place, bordering on Long Island Sound, is on the line of the New York and New Haven Railroad, about forty-four miles from New York, with which city there is frequent communication.

For Catalogues, address

Rev. C. M. SELLECK, A. M., Principal,
Norwalk, Conn.

RIVERVIEW ACADEMY,

OVERLOOKING THE HUDSON RIVER

POUGHKEEPSIE, N. Y.

The attention of intelligent persons is called to the advantages furnished at RIVERVIEW ACADEMY for the education of Boys.

The training in this Academy is claimed to be superior for awakening the enthusiasm and dormant energies of such pupils as have failed to find much interest in study or school exercises generally, while to the studious and diligent it furnishes such recreation in its well-organized military exercises as is calculated to insure continuance of bodily health without interfering with study.

While there is no design to magnify the military part unduly, nor to train boys to become soldiers, it is, nevertheless, found that as an instrument, as it were, of discipline it is invaluable. Its products are attention, erectness of form, graceful carriage, confidence without arrogance—in short, a large part of the sum of those graces that make men acceptable in society, and useful in the world.

It is claimed that, in morals and behavior, boys are as well off as they are in good homes, and far better than in many. Many parents are not in circumstances to give proper and needed attention to their boys. To such this Academy offers its careful supervision and training.

For circulars and other information address the Proprietor and Principal,

OTIS BISBEE.

1874 EIGHTH ANNUĄL ĄNNOUNCEMENT 1874

Pardee Scientific Pepartment,

IN

Lafayette College, Easton, Pennsylvania.

The new building for the use of this Department was formally opened and dedicated October 21, 1873, in the presence of His Excellency the Governor of Pennsylvania, and other State officials, the Synod of Philadelphia, and a great assembly of the Alumni and other friends of the College and friends of education. This building, with its scientific equipment, cost more than a QUARTER OF A MILLON OF DOLLARS, and is the munificent gift of A. Pardee, Esq., the founder of the Scientific Department of the College. In determining what rooms were needed and the best arrangement of them, similar buildings in Europe as well as this country were carefully studied, and liberal provision has been made in all the departments of instruction for every aid which has been devised for the most thorough and attractive teaching, and also for the prosecution of original researches.

The Pardee Scientific Department in Lafayette College was organized in 1866, and embraces the following Courses:

- 1. A GENERAL SCIENTIFIC COURSE parallel with the Classical Course of the College, except that the Philological Study of the English and other Modern Languages takes the place of Latin and Greek. © Graduates in this Course receive the degree of BACHELOR OF PHILOSOPHY.
- 2. ENGINEERING COURSE, designed to give professional preparation for the location, construction, and superintendence of Railways, Canals, and other Public Works.

 *** Graduates in this Course receive the degree of CIVIL ENGINEER.
- 3. MINING AND METALLURGY. This course offers the means of special preparation for exploring undeveloped mineral resources, and for taking charge of mining and metallurgical works. Fraduates in this Course receive the degree of MINING ENGINEER.
- 4. CHEMISTRY. This course includes text-book study, lectures, and laboratory practice, every facility for which is found in the extensive laboratories of Pardee Hall. Particular attention is given to the Chemistry of Agriculture, Medicine, Metallurgy, and the Manufacturing Processes. Fraduates in this Course receive the degree of ANALYTICAL CHEMIST.
- 5. POST-GRADUATE COURSES, designed for Graduates of Colleges or Scientific Schools, and others having suitable preparation. Such persons may pursue advanced studies in any Department, under the direction and instruction of the Professors in that Department, and may have the use of the laboratories, apparatus, collections, and libraries of the College while prosecuting their researches. Set Those who complete a three-years' Course in these post-graduate studies receive the degree of DOCTOR OF PHILOSOPHY.

The COLLEGE CATALOGUE, containing the full courses of study both in the SCIENTIFIC and CLASSICAL Departments, with the conditions for admission in each, the tuition fees, general expenses and other information, may be had on application to

Prof. ROBERT B. YOUNGMAN, A. M.,

CLERK OF THE FACULTY,

Or to

TRAILL GREEN, M. D., LL.D.,

DEAN OF THE PARDEE SCIENTIFIC DEPARTMENT.

MOUNT PLEASANT

Military Academy,

A BOYS' BOARDING SCHOOL,

AT

Sing Sing, on the Hudson.

This Institution, founded in 1832, has long been widely and favorably known.

The location is unsurpassed in beauty and healthfulness; the grounds are ample and attractive; the buildings neat and commodious.

The corps of teachers embraces six resident teachers, three visiting teachers, and three lecturing professors.

There are five graded classes in the Regular Course of study, and parallel courses in the Latin, Greek, French, and German languages. Instruction in Penmanship, English Composition, Elocution, and Vocal Music, is given to every member of the School.

It is believed that ample provision is made for every department of study, and for the proper moral and physical care and training of the young.

For further particulars, address the PRINCIPAL,

J. HOWE ALLEN,

Sing Sing, N. Y.

Reference is made to the following well-known gentlemen, whose sons have been on the Roll of Cadets, during the present and past years:

COLLEGE

Christian Brothers,

ST. LOUIS, MO., 1872.

This Literary Institution possesses all the advantages of an agreeable and healthy location, easy of access, being situated on a rising ground a little to the south-west of the Pacific Railroad terminus in the city of St. Louis, Missouri. It was founded in 1851 by the Brothers of the Christian Schools, incorporated in 1855 by the State Legislature, and empowered to confer degrees and academical honors. However favorable the auspices under which it commenced its literary career, its progress since has surpassed all anticipation. Growing equally in public confidence and in the number of students, it has gone on extending its reputation. Repeated additions have been made to the original buildings. The number of students received within the last year amounted to more than 600, and many applicants were refused admission for want of room.

Every possible attention is paid to whatever can contribute to the health and happiness of its inmates—ventilation, cleanliness, spacious halls, dormitories, refectory, recreation

of its inmates-ventilation, cleanliness, spacious halls, dormitories, refectory, recreation

halls for cold or damp weather, etc., etc.

The various arts and sciences usually taught in colleges find here an appropriate place in a system of education established by experience, conducted on the most approved plan, and with a devotedness commensurate with the greatness of the work engaged in. By reason of the great number of classes, a thorough gradation for all capacities and acquire-

reason of the great future of classes, a through graduation for air capacities and acquirements has been attained, and the frequent examinations and promotions beget emulation, the soul of advancement, making labor a pleasure and success a certainty.

The course of instruction pursued in the Academy is divided into three departments: the primary, the intermediate, and the collegiate. There is, besides, an exclusively commercial course, offering rare advantages to young gentlemen who intend to make business their profession. It is divided into three classes, in which the chief place is given to instruction in Book-keeping. Arithmetic, Geography and History, Business Forms and Correspondence, Epistolary Composition, Penmanship, etc., with Lectures on Commercial Law, Political Economy, etc. Diplomas can be obtained in the Commercial Department by such as merit that distinction.

The session commences on the last Monday in August, and ends about the 3d of July, with an annual public examination and distribution of premiums, and the conferring of

degrees and academical honors.

degrees and academical honors.

On the completion of the course the degree of A. B. is conferred upon such students as, on examination, are found worthy of that distinction. The degree of A. M. can be obtained by graduates of the first degree after two years devoted to some scientific or literary pursuit, their moral character remaining unexceptionable.

The government is a union of mildness and firmness, energy and kindness, a blending of paternal solicitude with fraternal sympathy; the results of which are contentment, good order, and happiness. The morals and general deportment of the students are constantly watched over: Brothers preside at their recreations, and their comfort and personal habits receive every attention.

N.B.—Payments semi-annually and invariably in advance.

No deduction for absence, except in case of protracted illness or dismissal.

. No extra charges for the study of the German, French, and Spanish languages.

Wesleyan Aniversity.

In beauty and healthfulness of location, in thoroughness of scholarship, and in the power of moral influences, this Institution presents unusual advantages.

The Modern Languages, Experimental Chemistry, special instruction in Elocution, and a wide range of scientific studies, form a part of the regular college course.

A well appointed LABORATORY offers unusual facilities for the study of Chemistry. All the students have opportunity to make experiments and to engage in practical works.

The physical and astronomical apparatus is ample, including a twelve-inch refracting telescope made by Alvan Clark, Esq., a spectroscope of high dispersive power, etc., etc. The Museum is arranged with reference to the wants of students, and is open to all. Special students in natural history are allowed the use of specimens.

The ZOOLOGICAL, GEOLOGICAL, MINERALOGICAL, and BOTANICAL collections are large and valuable.

The LIBRARY contains 25,000 volumes, and is steadily increasing from the income of \$27,600. About 100 leading American and foreign periodicals are furnished in the reading-room. The GYMNASIUM is furnished with complete apparatus, heavy and light.

Expenses are very low, and no student of ordinary ability, tact, and energy, need fail to obtain a college education.

More than \$8,000 are annually given away in free tuition. For further information address the President,

REV. JOSEPH CUMMINGS, LL.D.,

MIDDLETOWN, CONN.

PENNINGTON SEMINARY

And Female Collegiate Institute

OF THE

NEW JERSEY ANNUAL CONFERENCE.

The course of study embraces all the branches of a liberal education, whether solid or ornamental, that are taught in seminaries of the highest grade. Special instructions are given in Book-keeping. We are giving particular attention to those preparing for Collego, and to young men designing to enter the Minis.ry. By virtue of an act of the Legislature of New Jersey, the authorities of the Institution are empowered to confer degrees in the Female Department. We would call the especial attention of young ladies desiring a THOROUGH EDUCATION to this fact. Students who pursue the course of study given above, and sustain a satisfactory examination, are entitled to a diploma from the Faculty and Trustees of the Institution. Under-Graduates, who are obliged to leave before completing the course, will, on application, receive an honorable discharge and a certificate of standing in the branches pursued.

Students applying for admission in advance, either to the ladies' graduating course or to the classical or scientific course, will be examined in the studies previously pursued by the classes into which they propose to enter, and, if sufficiently near the requisite standard, may be conditioned on the remaining studies or parts of studies, which conditions must be made up within the year, and satisfactory examinations passed thereon.

No student shall be permitted to take less than three or more than four studies—reading, spelling, and writing, not being counted.

No student shall be retained in a class if his recitations are continuously deficient, nor shall any one be advanced in any study whose average grade at the close of the term is below eighty-five.

We prepare students for any of the colleges in this country, but especially for Dickinson, Wesleyan University, Princeton, and Yale. When the student desires it, we prepare him for the Sophomore Class in any of these colleges. When the student does not purpose to enter college, we heartily recommend to him our scientific course, which bears a favorable comparison with the scientific courses pursued at colleges. This course was especially designed to meet the wants of that numerous class of young men who have only time and means for a thorough English education and for the modern languages. We take great pains in the education of young ladies, and have the best of facilities for this noble and responsible work. Our graduating course for young ladies embraces, as will be seen, a thorough and extended English education in connection with the ancient and modern languages. In music, painting, drawing, and all the ornamentals in wax, fruit and flowers, and hair-work, we are prepared to give a most finished training.

For Catalogues, or further information, address

JOSEPH A. DILKS, A. M., Principal,

Pennington, N.J.

Norwich Aniversity

MILITARY COLLEGE, ESTABLISHED IN 1834.

REV. MALCOLM DOUGLASS, D.D., President.

NORWICH UNIVERSITY is situated about ten miles south of Montpelier, in the quiet and attractive village of Northfield, Vermont, where comparatively few temptations invite to idleness and dissipation. The position is pleasant, easy of access by means of the Central Vermont Railroad, and is very healthy.

THE UNIVERSITY, by her works for nearly FORTY years past, and more lately by her extraordinary contribution of educated Officers during the War, has earned a title to the generous confidence of the public.

The course of instruction embraces the usual studies of a liberal education, while her Charter makes Civil Engineering and Military Science a distinguishing feature.

To all those who desire for their sons a right training of the head and heart, and desire also to unite with it the Physical and Moral benefits of a thorough Military Education, Discipling, and Drill, under the most favorable circumstances, and with surroundings of the most wholesome influence, Norwich University presents her claims.

Candidates for the Freshman Class must be able to stand a satisfactory Examination in Common Arithmetic, English Grammar, Reading, Writing, and Spelling; in Algebra through Equations of the Second Degree, and in the History of the United States.

The usual Collegiate requirements for admission to the Freshman class will be expected in the Classical Department. Provision is made in the Preparatory Department for Elementary instruction in Latin and Greek, with a view to entering the *Freshman* year,

TERMS AND VACATIONS:

Summer Term, 1874, begins Thursday, April 9, and closes June 25, followed by the Summer vacation of ten weeks. Fall Term of 1874-5 begins September 3, and closes November 26, followed by five weeks vacation. Winter term begins December 31, and closes March 26. Vacation of two weeks. Summer Term begins April 9, and closes July 1.

EXPENSES.

The charge, in gross, for Tuition, Board, Fuel, Lights, and Room Rent, and the use of Arms and Equipments, \$360.00 per school year. For further information, address

Prof. CHARLES DOLE, NORTHFIELD, Vermont.

NORTHFIELD, Vt., September 1, 1874.

REV. D. A. HOLBROOK'S

SING SING, N. Y.

This Institution, located about one mile from the Village of Sing Sing, aims to prepare boys for College or for business.

For fuller information please send for Circular.

RUGBY ACADEM.

1415 Locust St., Philadelphia.

This Academy was established nine years ago. The building in use is admirably situated for school purposes, having a central position in one of the best sections of the city of Philadelphia, and being, at the same time, removed from the undesirable surroundings and associations of the business centres.

The rooms are neatly and comfortably furnished, and are light, well ventilated, and in every respect comprodious.

and, in every respect, commodious.

Aim of the School.

Pupils are prepared for business and professional life, for technical schools of

bigh grade, or for honorable standing in college.

The course of instruction in the English branches is thorough, progressive, and complete. In this department critical attention is paid to Reading, Spelling, English Grammar, Penmanship, Composition, and the English branches generally, including Natural Science. The aim is to teach these subjects thoroughly and by the best methods.

The course pursued in the Classical Department is designed to secure a complete preparation for college. Pupils are fitted for any college or university that may be designated, inasmuch as the course of preparatory study is chosen with reference to those colleges which are most strict and exacting in their examination of candidates.

French and German are taught by native instructors.

Both in the English and Classical courses great prominence is given to the hematics. The training to which students are subjected in this branch is careful and thorough, every rule being challenged, and every process traced to its fundamental principles in axion's and definitions.

For Catalogues, address the Principal, EDWARD CLARENCE SMITH, A. M., or call at the Academy.

Rock Hill College,

MARYLAND,

Conducted by the Christian Brothers.

This Institution is situated upon a rising ground, in one of the healthiest and most picturesque portions of the State, and within a few minutes' walk of the Ellicott City Railroad Station.

It affords rare facilities to the student who would pursue a Commercial, Classical, or Scientific course.

While proper care is bestowed on every subject taught in the College, our own language receives special attention. The daily exercises of the students in Grammar, Composition, and Rhetoric are publicly discussed and corrected in the class-room. The English classics are read with all the attention bestowed on a Latin or Greek author; words, idioms, striking expressions and historical allusions are dwelt upon in the spirit of sound criticism and philology.

For particulars, see Catalogue.

BRO. BETTELIN, President.

Maplewood Institute for Young Ladies.

OCATED on the Boston and Albary Railroad, and at the northern terminus of the Housatonic Railroad, it is two hours distant from Albary, Hubban, or Springfield, and air from Boston and New York. For salubrity of climate, beauty and variety of secency, Pittsfield can hardly be surpassed. The long ranges of the Hoosuc and Taghanic mountains on the east, south and west, with Saddle Mountain on the north, enclose a valley of great fertility, in the centre of which, on a gentle elevation, overlooking the town toward the south, and the valley in every direction, stand the buildings of the Institute.

The Institute, founded in 1841, and now completing its thirty-third year, has been for the past seventeen years under the charge of the present Frincipal. It has received pupils from every part of the United States, and a large proportion of its graduates have come from the Southern, Middle, and Western States. The unusually long and prosperous career of the Institution, if its high rank from the frest, the important improvements from time to time adopted, and the great beauty and salubrity of its accessible location, have combined to draw its pupils from every State of the Union, and to give it attractions which it is believed no other similar school presents. The Catendar for the ensuing year will be as follows: Fall Term opens on the 17th of September. Fall Term closes on the 2d of February, 1875. Spring Term opens on the 16th of February, 1875. Spring Term closes on the 29th of June, 1875.

Besides a Preparatory and Collegiate course of study it has an extended course in Music, on the completion of which a Diploma is given.

TO APPLICANTS FOR OUR CATALOGUE, it is cheerfully sent without charge, even when no information is given as to the object of the Such information is however earnestly solicited, together with an acknowledgment of receipt of Catalogue, as soon as it is application. received.

REV. CHAS. V. SPEAR, Principal.

PITTSFIELD, MASS.

FOR YOUNG LADIES.

POUGHKEEPSIE, N. Y.

C. C. WETSELL,

Proprietor and Principal

This School offers to pupils superior advantages in the Common and Higher English Branches, Ancient and Modern Languages, and in Music and the Fine Arts.

No teachers are employed except those who have had successful experience in teaching, and who are thoroughly competent.

The course of instruction is comprehensive, including all the branches usually taught in first-class Ladies, Seminaries.

Music and the Fine Arts are made a specialty, and are taught by true Artists, of acknowledged ability.

Only native teachers give instruction in the Modern Languages. For further information address the Principal.

SESSIONS, RECESSES, AND VACATIONS.

The School year commences the third Wednesday in September, and closes the third Wednesday in June.

Sessions commence the third Wednesday in September, and the first Wednesday in February.

Quarters commence the last Wednesday in November, and the third Wednesday in April.

There will be two short intermissions during the year, at the holidays and in the spring.

BORDENTOWN FEMALE COLLEGE,

BORDENTOWN, N. J.

COURSE OF STUDY.

PREPARATORY DEPARTMENT.

The branches embraced in this department are the following: Arithmetic (written and intellectual), Modern Geography, English Grammar, Penmanship, Spelling, Definitions, Reading, Composition, and the Histories of the United States and England.

COLLEGIATE DEPARTMENT.

Two courses of study are embraced in this department, the scientific and the classical. The former requires three years for its completion, the latter four years.

SELECT COURSE.

Those young ladies who have completed the Preparatory Course, and who do not wish to complete either of the regular courses of study, may take a select course, and recite in such of the College classes as their qualification will permit.

Thoroughness is aimed at in every department, and careful attention is given to the common as well as to the more advanced branches of a complete education. Each department is under the care of a thoroughly competent and experienced teacher. No effort on our part will be wanting to conduce to the health and comfort of the pupils, and to their intellectual and moral advancement.

This Institution is pleasantly located, easy of access, extremely healthy, and is most carefully conducted, furnishing the very best educational advantages in connection with a pleasant home.
